DRY CANDIDATE TALKS
ABOUT PERSONAL LIBERTY

The Mexican representatives were still insistent that their army is capable of maintaining peace in northern Mexico and that relations between the two countries would be greatly improved by the withdrawal of the American forces. The Americans insisted on further study of Mexican internal affairs adhering to their position that any agreement entered into must be so broad as to make reasonably certain the safety of American life and property throughout Mexico.

"I haven't had patience with the dry liberty arguments," he said. "We live in a complex civilization that tries to touch each other's throats and points of contact and we can not live unto ourselves."

When Robinson Crosson found himself shipwrecked he might have done as he pleased, but when he found a footprint in the sand to the sea his relations changed. He no longer could do as he pleased, for what he pleased to do affected another man.

Thus men in our complex civilization can not do as they please because if he did he would constantly affect others. Therefore, we are compelled to live our lives so that others will not be wronged by what we do.

Besides Crosson and Winslow Arce, the sound was to visit El Paso and Albuquerque, N. M., today.

TRY OIL OF KOREIN TO KEEP
WEIGHT DOWN OR TO RE-
DUCE SUPERFLUOUS
FADE

People who are confined within doors and who are deprived of fresh invigorating air and exercise must take precautions to guard against over-sensitivity, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.

If you are 18 or 20 pounds above normal weight you are daily drawing on your reserve strength and energy by constantly lowering your activity by carrying this excess burden. Any person who is interested in their own health that they are too stout are advised to go to Batt's Inn or any good drug store and get a box of oil of Korein capsules and take one after each meal and one just before retiring at night.

Even a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energy. Footsteps become lighter and the skin less flabby in appearance as superfluous fat disappears.

Oil of Korein is inexpensive, safe

not injurious, and helps the digestion.

Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial.

BANKERS PLAY: TO GET DOWN TO BUSINESS TODAY

Financial Experts Enjoy Kansas City Hospitality Preparatory to Beginning Their Active Business Sessions

SPECIAL CORRESPONDENCE TO MORNING JOURNAL
Kansas City, Mo., Sept. 25.—Gold motor car trips and an informal reception at convention hall took up most of the time this afternoon and tonight of the thousands of bankers who are here to attend the annual convention of the American Bankers Association, the first meetings of which were held today. Practically all of them were of a routine nature and few attended the day being spent principally in sightseeing preparatory to the active business sessions that will start tomorrow.

Committee meetings today were preparatory to a meeting tomorrow morning at which the section of the federal reserve act relating to electric hearings will be taken up.

This is the most widely discussed subject confronting the present convention, and indications tonight were that tomorrow's meeting would be stormy one.

FOREIGN CROP REPORT IS ISSUED FROM ROME

BY MORNING JOURNAL SPECIAL LEASED WIRE

Ottawa, Sept. 25.—A cablegram received this afternoon from the International Institute of Agriculture at Rome, Italy, gives the following estimates of this year's crop production:

"The total production of wheat in Spain, England, and Wales, Ireland, Italy, Switzerland, Canada, United States, India, Japan, and Tasmania is estimated at 1,450,000,000 bushels, or 34.2 per cent of the production in the same countries last year and 82.8 per cent of their average production in the five years 1906-10. The production of rice in Spain, Italy, Switzerland, Canada, and the United States amounts to 3,200,000 bushels, being 85.7 per cent of last year's crop and 115.4 per cent the five years average."

The production of barley in the same countries as given for wheat last year in India is 1,760,000,000 bushels, 88 per cent of last year's crop, and 109.6 per cent of five years' average.

The production of oats in the same countries as given for wheat last year in India and Japan is 1,125,760,000 bushels, 78.2 per cent of last year's production and 106.8 per cent of the five years' average.

Calgary, Sept. 25.—The official statement regarding the air raid on England, issued today, reads:

"On the night of September 23 and 24 several squadrons of naval airships extensively bombed London and places of military importance on the Continent, and in the middle countries of England, among which were Nottingham and Sheffield. Success everywhere was visible from the heavy concentrations which could be seen for a long while."

The airships, when approaching England, and before crossing the English coast, were sheltered by patrol boats and during the attack by defensive batteries, which used incendiary projectiles. The airships silenced some batteries by well-directed volleys. Two airships fell victims to the anti-airship fire around London. All the others returned undamaged."

El Paso, Sept. 25.—A Carrancista

soldier was shot and killed Friday night by an American trooper of the Fifth Cavalry, who is being held prisoner, according to a report brought to Columbus, N. M., from field headquarters.

The Carrancista commander at El Paso refused to surrender the prisoner after Gen. J. J. Pershing sent a messenger requesting release of the American.

According to the report eight members of the Fifth cavalry visited a saloon at El Paso. Seventeen Carrancista soldiers entered later with sabers.

During the drinking the Mexican soldier is said to have proposed a toast to the United States, which was objected to by the Americans. The shooting is reported to have followed.

The troopers fled through windows and doors, but missed one of the comrades when they reached camp.

They reported having seen soldiers carrying a wounded American away.

Following an investigation, General Pershing sent Capt. William Reed to confer with the Carrancista commander.

Unconfirmed reports say the latter refused to release the trooper and is holding him incommunicado on a charge of murder.
